

Experienced Agronomist Dorset / Hampshire

CCC provides independent agronomy services to clients across the South of England. Established in 1985, we operate a unique model in which all clients are shareholders, and the business is overseen by a board of farmer-directors.

We are a technically driven organisation, drawing on independent AICC trials data alongside our own locally generated trials. Our culture is genuinely people-focused, with strong family values and a commitment to supporting every employee's professional growth.

Due to continued expansion, we are seeking an **experienced agronomist** to join our team. A proven track record of delivering high-quality agronomy advice to professional growers is essential. Experience across a broad range of crops is highly desirable.

The Role

The successful candidate will:

- Provide agronomy support to a portfolio of clients across combinable and vegetable crops.
 - Deliver technically robust advice tailored to individual farm requirements.
 - Uphold CCC's values of independence, professionalism, and client-focused service.
-

Candidate Requirements

- Degree in Agriculture, Agronomy, or a related discipline.
 - BASIS and FACTS qualified.
 - Strong interpersonal skills with the ability to build long-term client relationships.
 - Excellent communication skills and attention to detail.
 - Self-motivated, organised, and capable of managing workload independently.
 - Competent IT skills, including MS Office and relevant industry software.
 - A genuine interest in crop production, regenerative agriculture, and environmental stewardship.
-

What We Offer

- Competitive salary and benefits package.
 - Supportive, collaborative working environment.
 - Opportunities for ongoing professional development.
 - The benefits of working within a successful, people-focused organisation.
-
